**RACK ELECTRIC SERVICE AGREEMENT DETAILS**

Rack Electric will maintain a complete service history and service procedure data, available at your request.

Upon request, after each inspection, Rack Electric will provide a written report detailing the conditions found and advising further service required if necessary.

Inspections to be performed during normal business hours 7:00 AM to 4:00 PM. After-hour inspections can be performed at an additional charge.

It is understood that each inspection includes the items shown on the attached points of inspection list. It does not include parts, labor for installation, lubricants, fluids, fuels, and environmental disposal fees unless otherwise stated.

In the event your generator requires diagnostics or repair outside of regular maintenance, please see rates below:

- \$125.00 for the 1st half hour, (Non-Agreement \$175.00)  
Every hour after: \$125.00
- Overtime Rates: \$175.00 for every hour of diagnostics.
- Night/Weekends/Holidays 4p.m. - 7a.m. Emergency call: Dispatch + 30 minutes = \$395.00, \$175.00 per hour after the first 30 minutes.
